5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Water spray (fog). Foam. Halon. Carbon dioxide (CO2). Dry chemical. Any "ABC" class.

Unsuitable Extinguishing Media Not determined.

Specific Hazards Arising from the Chemical

Contents are corrosive and all personal contact must be avoided. Harmful (acidic) vapors will evolve if this material is involved in a fire. Toxic fumes may be given off when material is exposed to fire.

Hazardous Combustion Products Phosphorus oxides. Nitrogen oxides (NOx). Oxides of sulfur. Carbon oxides.

Sensitivity to Mechanical Impact Not sensitive. Sensitivity to Static Discharge Not sensitive.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Move combustibles out of path of advancing pool if you can do so without risk. Move containers from fire area if you can do so without risk. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Use personal protective equipment as required. Uncontrolled releases should be responded
	to by appropriately trained personnel in proper personal protective equipment, using pre-
	planned procedures.

Methods and material for containment and cleaning up

Methods for Containment	Keep unnecessary and unprotected personnel from entering contaminated area. Absorb material with an inert material. Prevent from entering drains, sewers, or other bodies of water, absorb unrecoverable product. Transfer contaminated material to containers for disposal.
Methods for Clean-Up	Absorb spilled liquid with polypads or other suitable absorbent materials. Neutralize with sodium bisulfate or citric acid. Decontaminate the area thoroughly. Place in appropriate containers for disposal.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe HandlingDo not breathe dust/fume/gas/mist/vapors/spray. Wash face, hands, and any exposed skin
thoroughly after handling. Wear protective gloves/protective clothing and eye/face
protection. Use only in well-ventilated areas. Remove contaminated clothing and shoes. Do
not eat, drink, smoke, or apply cosmetics while handling this product.

Conditions for safe storage, including any incompatibilities

Storage Conditions	Store containers in a cool, dry location, away from direct sunlight, sources of intense heat, or where freezing is possible. Store away from incompatible materials. Store in a corrosion-proof area. Empty containers retain product residues. Do not contaminate water, food, or feed by storage or disposal.
Incompatible Materials	Strong bases. Strong oxidizing agents. Halogenated organics. Cyanides. Sulfides. Mercaptans. Nitrites. acetates. Silicon bearing materials. Carbides. Nitromethane. Sodium Tetrahydroborate. Aluminum. Metals. Fluorides.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

Appropriate engineering controls			

Appropriate engineering controls

Engineering Controls	Ensure adequate ventilation, especially in confined areas. Eyewash stations. Showers.
Individual protection measures, su	ich as personal protective equipment
Eye/Face Protection	Splash goggles or safety glasses. Face shields are recommended when the operation can generate splashes, sprays, or mists.
Skin and Body Protection	Wear a chemical resistant apron or protective suit if splashing or repeated contact with solution is likely. Wear neoprene or vinyl gloves for routine industrial use.
Respiratory Protection	Ensure adequate ventilation, especially in confined areas. In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.
